

## About yourself

In a short paragraph, please tell us about yourself (you may wish to talk about; your interests, what pronoun you'd like to be referred to as, the nationality you identify with, family, gender)

I am a very lucky person to have such a fantastic family. My two Daughters and my Son have made myself and Lisa very happy how they have become. I have two wonderful and beautiful Grand Daughters from one Daughter and twin Grand Sons from the other.

I love coaching football. I am currently manager of Haywards Heath Town FC Women (the old Crawley Wasps) and have been a football coach for around 20 years. We currently play in the FA Women's National League at a high level Tier 4.

I have studied law for many years at two universities without specializing. I have also an F.E Distinction in Football Coaching. I am a Tottenham Hotspur Supporter too for my sins.

My family mean the world to me, and it is a very rare sight when I don't see any of them smiling. They are a very happy bunch, with a great sense of humour. We are all now really good friends, as well as family.

I like to watch Public Law in action. I watch politics quite a lot and like to see and predict what will happen next with subsequent governments and very interested in the separation of powers and how it all works within our constitution.

I am an extremely tidy person. I like to do a little cooking every now and then too.

Living by the sea in Bexhill can be extremely relaxing and I like to spend quality time, just myself and Lisa going for a coffee and a bite to eat in the local cafés and restaurants.

I like to watch stand-up comedy and have a healthy eclectic taste in music too, if it gives you an earworm then it's a good track in my book.

Pretty simple guy, with pretty simple pleasures.
