

## About yourself

In a short paragraph, please tell us about yourself (you may wish to talk about; your interests, what pronoun you'd like to be referred to as, the nationality you identify with, family, gender)

My name is Joe. I was born in England and have a lot of Irish heritage. I enjoy loads of different things including watching and playing many sports, traveling as much as possible, learning about and experiencing different cultures. I love music and film. I do like a party and the food, drink and people that come with it. I consider myself to be a person that tries to help those that may be less fortunate or less able to help themselves.
