

About Yourself

In a short paragraph, please tell us about yourself (you may wish to talk about; your interests, what pronoun you'd like to be referred to as, the nationality you identify with, family, gender)

Hi, my name is Jane Bettley, and I am the Admin Director for Anderida. I have worked for the organization for 15 years starting as an admin assistant way back!!

I am interested in music and have in the past, played the saxophone, clarinet, and tenor horn although these have taken a back seat in the past few years.

I love to read and am hopeful that one day I will write my own book (when time allows).

I have spent the last four years, with my husband, renovating a run-down property and are now able to start enjoying it with my family and friends – although there is still some way to go with the garden!!

My main passion in life is my amazing family – I love it when we are all together but its also nice when they go home again!!
